With over three decades in the film and television industry, I'm proud to have had the opportunity to work as a gaffer on a variety of exciting projects. While I have a wealth of experience and knowledge, I approach each new project with a fresh perspective and a willingness to learn. I hope that this list of credits gives you a sense of my background and the types of projects I've been fortunate enough to be a part of. Thank you for considering me for your next production.
